

Parent/Guardian Release of Information Form
to be used with the
2011 Missouri Deafblind Census Reporting Form

The Missouri Deafblind Census includes information on the number of individuals (ages birth through 21 years of age) with deafblindness along with the types of services these individuals and their families receive. This information is necessary in order to determine the needs of infants, children and youth identified with deafblindness within a given area.

The United States Office of Special Education Programs is able to provide funding to the Missouri Deafblind Technical Assistance Project based on the identified needs and number of infants, children, and youth identified with deafblindness in Missouri. Future planning for services to these individuals with deafblindness is based on information collected about the current population. Therefore, it is important that all individuals with deafblindness are included in this Census to assure planning for their future.

I, (please print your name) _____,
parent/guardian of (please print your child's name) _____,
hereby give permission for my child's name and pertinent data to be kept on the Missouri Deafblind Census. I understand that this data will be used for planning programs for all deafblind infants, children and youth in Missouri.
